

PARTS LIST OF CL-2000 NEW VERSION  
(HIOS SHANK)

ISSUED : November,1998

REVISED : May,2003

| PARTS NAME                                                  | PARTS NO.   | PARTS NAME                                        | PARTS NO.  |
|-------------------------------------------------------------|-------------|---------------------------------------------------|------------|
| Transmission Assembly 1 - 26 (W/O 21)                       | CL21-TM     | Motor Assembly 29 - 31                            | CL2-MT     |
| 1 Torque Adjusting Nut                                      | CL21-0040   | 29 Pinion Gear (Include Motor Assy)               | _____      |
| 2 Nut fixing Ring                                           | CL2-0020    | 30 Motor (Include Motor Assy)                     | _____      |
| 3 Torque Adjusting Spring Holder A                          | CL2-0010    | 31 Connector 5045-02A (Include Motor Assy)        | _____      |
| 4 Torque Adjusting Spring (Black)                           | CL2-0050-2  |                                                   |            |
| Torque Adjusting Spring (Yellow)                            | CL2-0050-1  | 32 Body Case A & B                                | CL21-0380  |
| 5 _____                                                     |             | 33 Name Plate                                     | CL21-0470  |
| 6 Torque Adjusting Bolt                                     | CL21-0070   | 34 Set Screw 2.6x6                                | STP26X060  |
| 7 Collar Stopper                                            | CL2-0100    | 35 Set Screw 2.6x12                               | STPB26X120 |
| 8 Joint Shaft Collar                                        | CL2-0110    | 36 Switch Lever                                   | CL21-0410  |
| 9 Joint Shaft Collar Spring                                 | CL2-0120    | 37 Switch Lever Spring                            | CL2-0430   |
| 10 Washer 6.6X8.5X0.5                                       | CL2-0130    | 38 Steel Shaft 2 φ X17.8                          | ACL20-0550 |
| 11-1 Clutch Panel Spring                                    | CL2-0160    |                                                   |            |
| 11-2 Clutch Panel B                                         | CL2-0151    | Circuit Assembly 39 - 44                          | CL2-CC     |
| 11-3 Clutch Panel A                                         | CL2-0171    |                                                   |            |
| 12 Thrust Bearing T-1370T1                                  | CL2-0190    | 39 Limit Switch SS-5-L(165)                       | CL4-0230   |
| 13 Steel Ball 1.5 φ                                         | BALL-015    | 40 _____                                          |            |
| 14 Steel Ball 2.0 φ                                         | BALL-02     | 41 Registor (RD50S)                               | _____      |
| 15 Steel Ball 3.17 φ                                        | BALL-0317   | 42 Ground Connector(41-319)(Include Circuit Assy) | _____      |
| 16 Joint Shaft                                              | CL2-0210    | 43 Housing Assy(5051-02)(Include Circuit Assy)    | _____      |
| 17 Cam                                                      | CL2-0231    | 44 For/Rev Switch                                 | CL2-0450   |
| 18 Thrust Bearing T-1160                                    | A45-0170    | 45 Film Condenser                                 | CL3NL-0440 |
| 19 Gear Case Assy                                           | CL21-0270   | 46 5-Pin Connector                                | CL2-0440   |
| 20 Limit Pin                                                | CL2-0250    |                                                   |            |
|                                                             |             | 47 Hanger                                         | CL4-0590   |
| 21 Set Screw 2x4                                            | STP20X040   |                                                   |            |
|                                                             |             | 48 Free-Up Belt                                   | CL4-0600   |
| 22 Lower Planet Cage                                        | CL2-0280    | 49 5-Core Cord W/Connectors In Both Ends          | CL4-0611   |
| 23 Planet Gear                                              | CL2-0290    |                                                   |            |
| 24 Steel Shaft 2 φ x9.8                                     | CL65PS-0150 |                                                   |            |
| 25 Upper Planet Cage                                        | CL2-0320    | 50 Jig for CL-2000                                | CL2-Jig1   |
| 26 Oil Seal                                                 | CL2-0330    |                                                   |            |
|                                                             |             |                                                   |            |
| 27 Set Screw 2x5                                            | STP20X050   |                                                   |            |
| 28 Motor Front Panel                                        | CL2-0340    |                                                   |            |
| ; CHANGED PARTS FROM FORMER TYPE OF CL-2000                 |             |                                                   |            |
| ; JIG IS NECESSARY FOR DETACHING TORQUE ADJUSTING BOLT (#6) |             |                                                   |            |
